

P3. Expanded Website ... www.nwaps.org

How do you use? / Comments / Suggestions

- Haven't seen it? (some variation repeated frequently)
 - Haven't gone on it recently – did before but it wasn't completely built
 - I didn't know there was an active website – I'd like to use it
 - Just looked at it – Has potential
 - Ok, I hadn't visited the website 'til right now
 - It's beautiful, user friendly, and very helpful
 - I'll check it out – why haven't I???
 - This might be valuable – if I checked it out
 - Haven't explored, yet!
 - I would use it - I don't know about it
 - Was not aware of Expanded Website
 - Just looked at for the first time – nice photo – some pages could use updating!
 - I'm not online much - I believe it is valuable to others & the community at large
 - Just don't have the time
 - Haven't used it at all
 - I am low tech
-
- Calendar function useful (repeated a few times)
 - Back-up resource when I don't have a Forum issue on-hand to refer to
 - ...often to check for events in the calendar, but will use the on-line directory when it goes up there
 - I refer people interested in the clinic to the website
 - I see this as being more useful for reaching possible members
 - I rarely look at the site – little changes – maybe papers or other additions would make it more of a reference
 - To look up dates & times for events. Attractively put together. Convenient because I can look up information from anywhere
 - Glad to see the expansion – Today we count on the Net for latest on all groups
 - I haven't used it much but know it potentially has high value
 - Look forward to the evolution of this resource
 - Excited about this development
 - It could be a source for [place for?] dialogue
 - Very good
