

Alliance Publications & Programs Valuation

In the table below Alliance publications and programs are ranked by how many respondents currently value each as "High" or "Medium," i.e. the high and medium counts were added together to establish the rank. This valuation comparison is still comparing "apples to oranges." (see Utilization) For instance, comparing the value of the membership directory to the Clinic Without Walls seems odd at best. Again the meaning of these rankings is perhaps better for forming questions than answering them. How do we figure out which programs a fine the way they are; which to enhance or restructure; which to phase out; which to nurture and grow?

Valuation Ranked by Percentage

	Assign Value to You?					Totals
	High	Medium	Low	None	No Answer	
Membership Directory	65%	22%	8%	0%	5%	100%
